**2019**

**INNOVATE, ENGAGE AND INSPIRE**

**Wednesday 6<sup>th</sup> March 2019**

Plympton International College is leading secondary education in the health and medical science field. With our unique industry-standard medical training facility, we provide a range of learning opportunities to stretch and inspire young people's critical and creative thinking skills. Partnering with the University of South Australia staff and facilities, we ensure students access relevant curriculum linked to post school pathways in diverse STEM fields.

**COMMUNITY PRIMARY WORKSHOPS**

In partnership with University of South Australia, we will be hosting workshops for local primary school students. Students will have the opportunity to attend powerful STEM learning, promoting collaborative inquiry based activities, intellectual stretch and global thinking. Workshops will focus on Exercise Physiology and Data Analytics as part of our health and medical research curriculum.

As a College we are committed to sharing innovative pedagogical practices to our local community. Selected *primary schools to register their students for a workshop.*

**COMMUNITY TOUR: 1:30pm – 2:30pm**

Community members are welcome to visit the College to observe the new facilities and see how innovation is changing the way we deliver teaching and learning. If you wish to attend please contact Larissa Kalms at [larissa.kalms840@schools.sa.edu.au](mailto:larissa.kalms840@schools.sa.edu.au) or telephone the college office on 8297 0488.

We look forward to sharing this special occasion with you.
